

Curaway.ai

Care All The Way.

Democratizing Global Healthcare Through Agentic AI.

The Domestic Healthcare Breaking Point

Financial Toxicity

Costs are rising 3–5× faster than average incomes globally.

Fact: U.S. healthcare spending hit **$4.5 trillion** in 2022 (**$13,493** per person). (Source: CMS.gov)

Access Denied

Chronic long waitlists in the US, UK, and Canada for critical procedures.

Fact: Median wait time between referral and treatment in Canada reached **27.7 weeks** in 2023. (Source: Fraser Institute)

The Coverage Gap

Over **42M+** people in the US remain uninsured or severely underinsured.

Supply Shocks

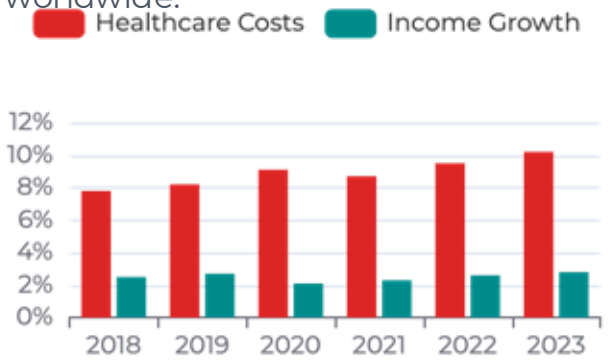

Critical global shortages in oncology, orthopedics, and cardiology specialists.

Fact: The U.S. faces a projected shortage of up to **86,000 physicians** by 2036. (Source: AAMC)

The Unbearable Burden: A Global Healthcare Crisis

Costs Rising Dramatically

Healthcare costs are increasing **3-5x faster** than income, making essential care unaffordable for many families worldwide.

Source: World Health Organization, 2023

Crippling Long Waitlists

Patients in US, UK, and Canada face extensive waitlists for critical procedures, delaying treatment and worsening conditions.

47
Days average wait for specialist in US

16+
Weeks wait for procedures in Canada

Source: Fraser Institute, 2023

Uninsured & Specialist Shortages

Over **42 million Americans** remain uninsured, while critical specialists (oncology, orthopedic, cardiac) face severe shortages globally.

42M+
Uninsured Americans

35%
Specialist shortage by 2025

Source: American Medical Association, 2023

These systemic healthcare failures create an urgent demand for alternative solutions, driving patients to seek affordable, timely care beyond their national borders.

The Problem

Healthcare costs are exploding

US/EU surgeries are 4–8x more expensive than India/Turkey/Spain .

Medical tourism is fragmented and opaque

Brokers, WhatsApp groups, Excel sheets, inconsistent quality.

Zero transparency & no structured process.

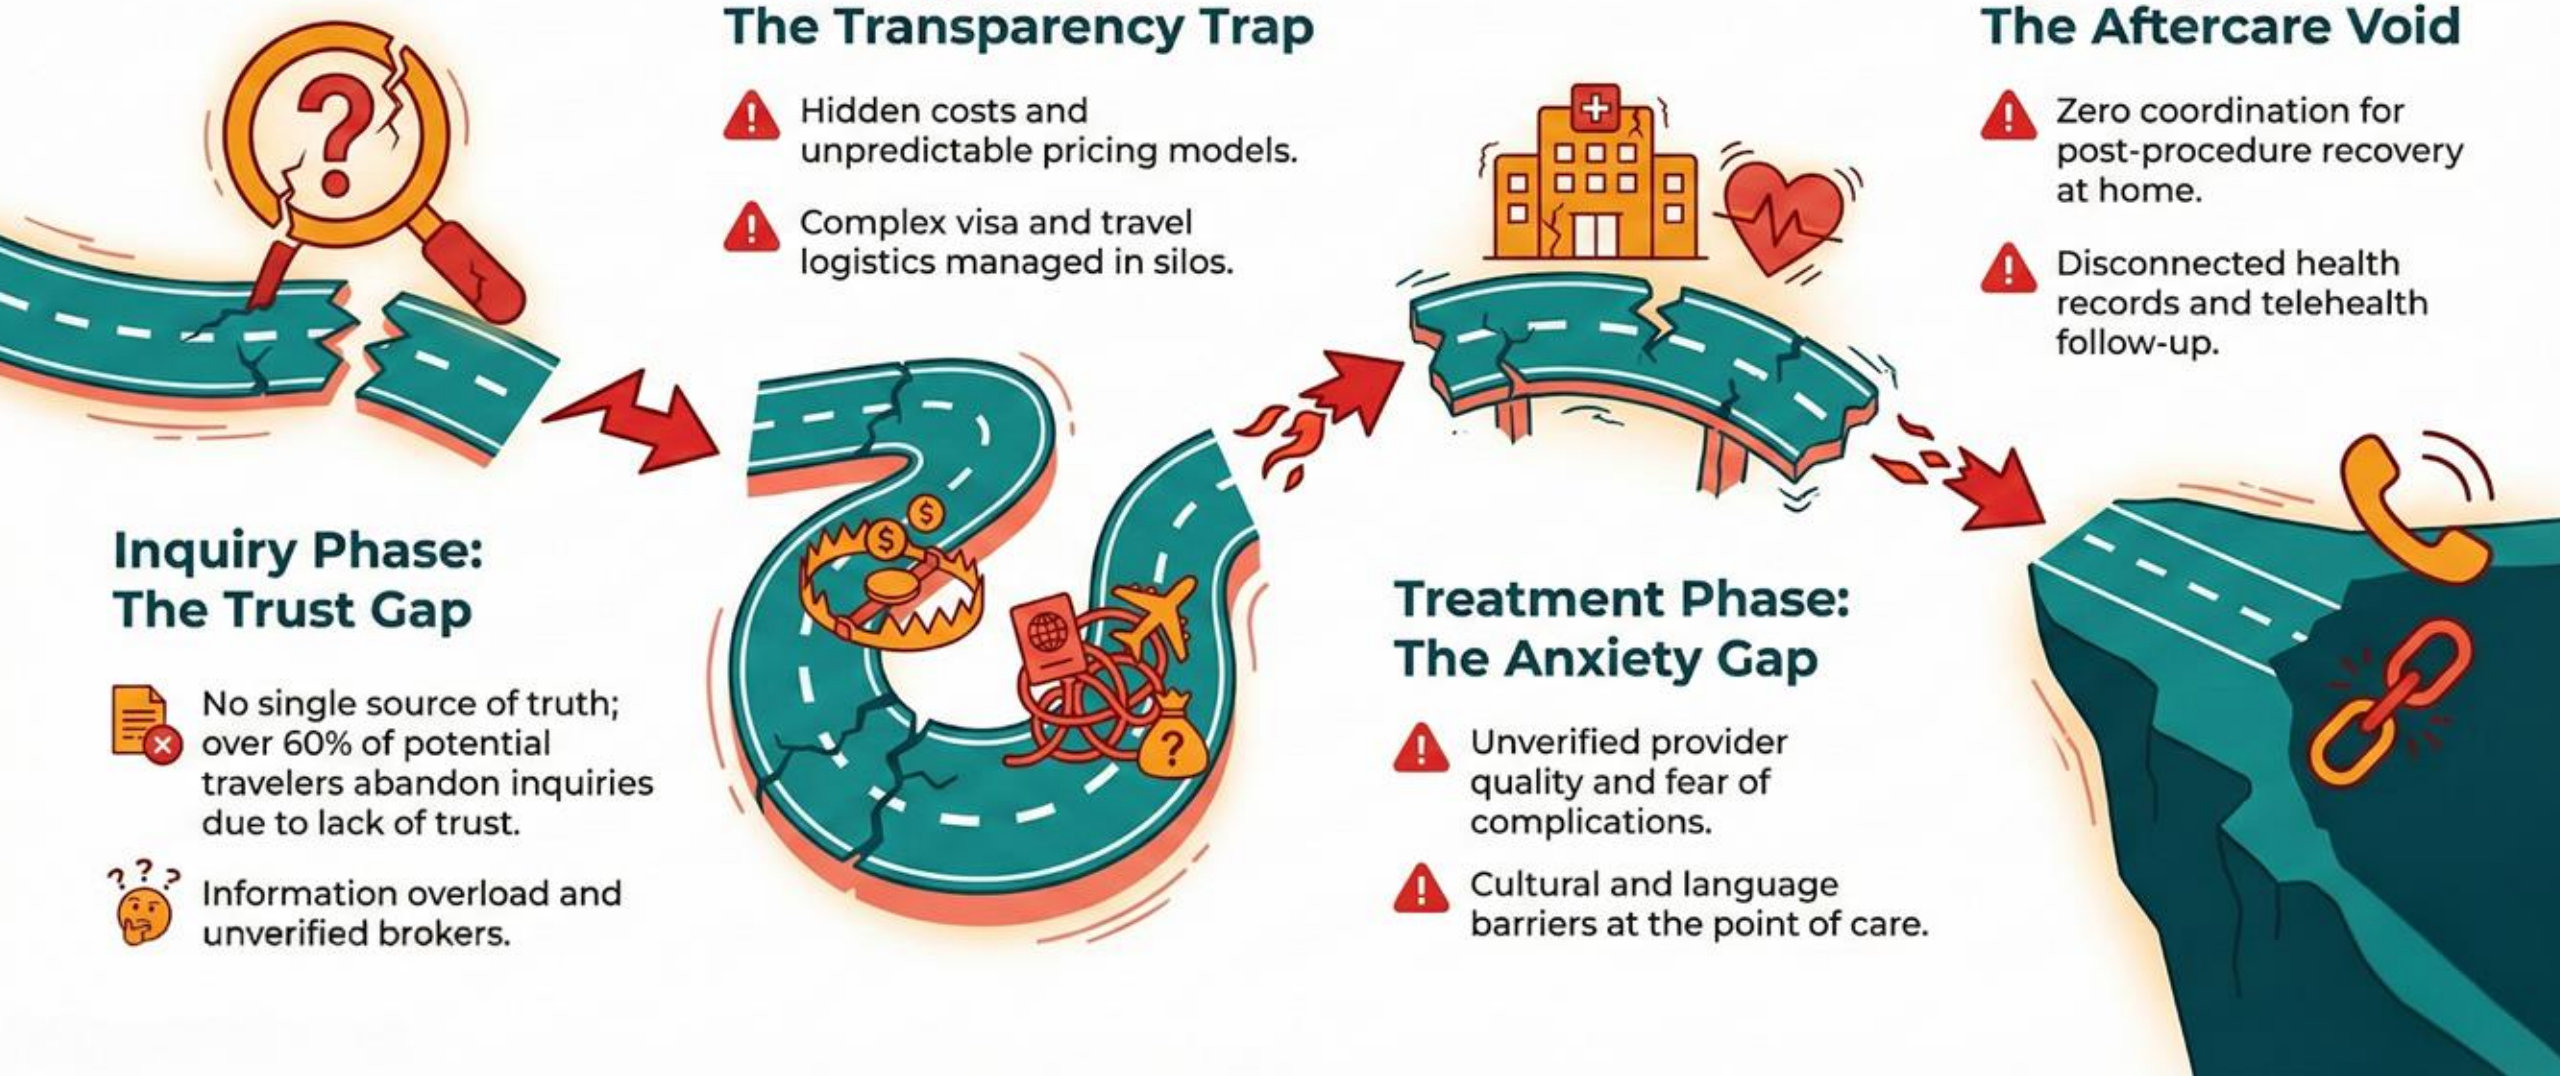

Patients lack guided navigation

No standard triage

No pricing clarity

No ownership of end-to-end experience

Navigating Care Abroad is Full of Friction

Inquiry Phase: The Trust Gap

- No single source of truth; over 60% of potential travelers abandon inquiries due to lack of trust.
- Information overload and unverified brokers.

Planning Phase: The Transparency Trap

- Hidden costs and unpredictable pricing models.
- Complex visa and travel logistics managed in silos.

Treatment Phase: The Anxiety Gap

- Unverified provider quality and fear of complications.
- Cultural and language barriers at the point of care.

Recovery Phase: The Aftercare Void

- Zero coordination for post-procedure recovery at home.
- Disconnected health records and telehealth follow-up.

Lost in the Labyrinth: The Fragmented Patient Experience

A fragmented, opaque process forces patients to navigate a maze from research to recovery.

No Trusted End-to-End Platform

Patients struggle without reliable resources to guide them through each step of their medical tourism journey.

Information Gaps & Complications

Fragmented sources create legal complications and compliance risks, leaving patients confused and vulnerable.

Unverified Providers

Patient evaluations depend on limited, non-transparent reviews with no quality assurance mechanisms.

No Logistics or Recovery Support

Patients manage complex travel and post-operative care coordination without institutional support or guidance.

Hidden & Unknown Costs

Lack of transparency leads to unexpected expenses that can be 200% over budget and disrupt treatments.

> *"I spent months researching treatments abroad, comparing costs online and relying on brokers who promised everything would be straightforward. The lack of transparency meant I faced unexpected expenses that pushed my budget to three times what I initially planned, while struggling to navigate post-op care after returning home."*
>
> **— Michael T., Clinical Case Study**

181

Studies show patients face unreliable online information and poor continuity of care

70%

Costs verified by third parties do not meet quality criteria

60%

Patients report confusion and anxiety on medical journeys

3X

Higher risk of complications without post-operative monitoring

The Perfect Storm: Push vs. Pull

THE PUSH (Cost & Access Crisis)

Developed Economies

Soaring **out-of-pocket costs** and rising deductibles.

Fact: Average U.S. knee replacement costs **$35k–$50k** (uninsured rate).

Wait times forcing patients to live in pain.

Aging populations increasing demand for chronic disease management.

THE PULL (Quality & Value)

Emerging Medical Hubs

Emergence of **JCI-accredited, world-class** medical hubs.

Fact: Advanced treatments available at **30–70% lower costs** without sacrificing quality.

Tech-enabled facilities offering exceptional patient experiences (hospitality mindset).

Strong **government backing** for medical travel infrastructure.

Medical Tourism is Booming

$31.23B (2024) → $162.8B (2032)

23% Compound Annual Growth Rate (CAGR)

Key Drivers

14M+ medical travelers annually seeking better care options.

Curaway.ai

Your Agentic AI Health Concierge

From Inquiry to Recovery. Automated.

Hyper-Personalized Matching

50+ factor clinical, cultural, and emotional compatibility engine. We don't just list hospitals; we match partners.

Radical Price Transparency

AI-driven itemized cost predictor. No hidden fees. Know the total cost of care before you fly.

End-to-End Orchestration

Agentic AI handles visa processing, flight bookings, and specialized accommodation automatically.

The Recovery Companion

Integrated aftercare planning and telehealth follow-up to ensure safe recovery back home.

We Are Not Digitizing Manual Processes — We Are Redesigning Them

MOST PLATFORMS SIMPLY PUT OLD WORKFLOWS ONLINE → DIGITIZED INEFFICIENCIES

CURAWAY CREATES AN AI-NATIVE OPERATING MODEL, ELIMINATING BOTTLENECKS

AUTONOMOUS PROCESSES = SPEED, ACCURACY, COST EFFICIENCY, AND FAIRNESS

TRUE VALUE COMES FROM REINVENTION, NOT AUTOMATION OF LEGACY FLAWS

Before

After

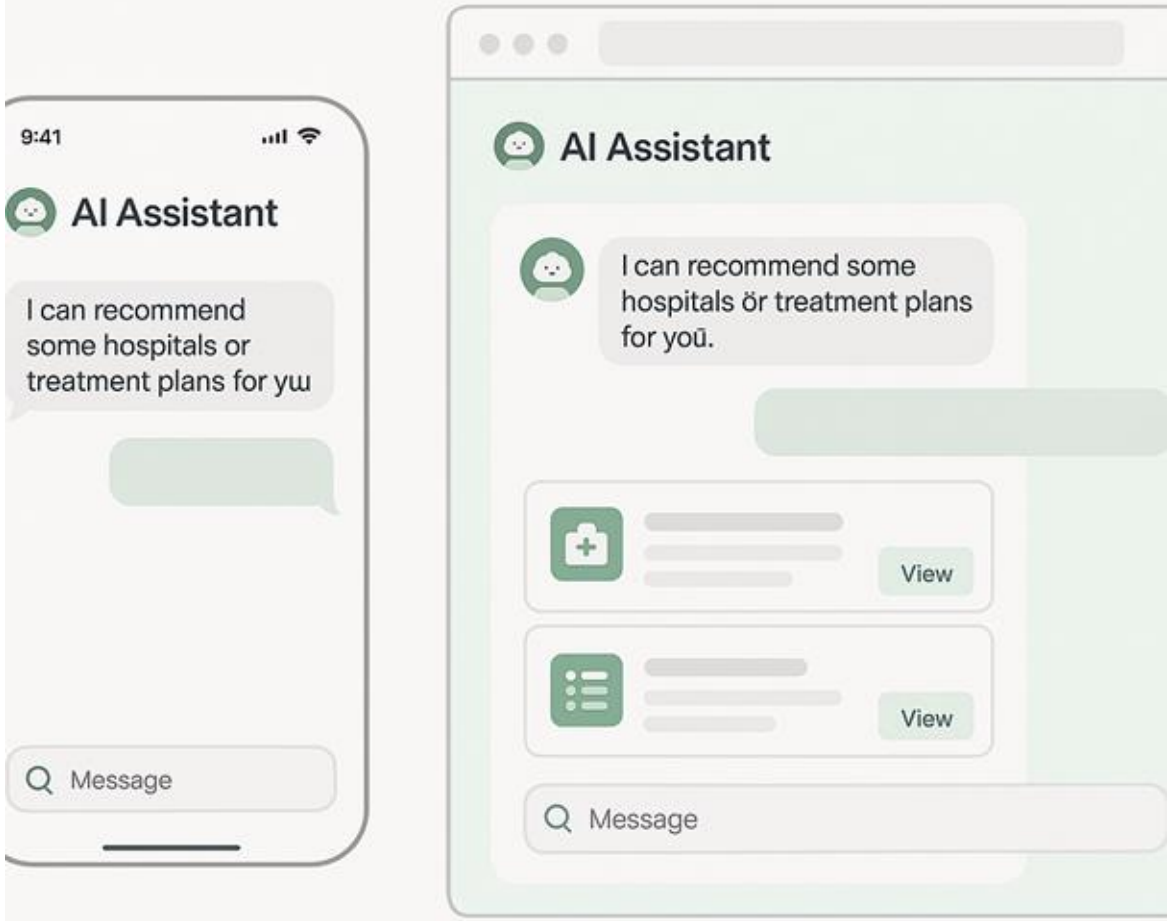

The Curaway Solution

AI triage → hospital matching → pricing → logistics → recovery

Complete automation for predictable outcomes

Eliminates middlemen & manual confusion

Builds global trust infrastructure for cross-border care

Curaway.ai: Your Intelligent Navigator for Global Healthcare

An Agentic-AI platform that manages healthcare journey, with seamless human handoff.

Matching AI

Clinical & Cultural Matching (50+ factors)

- Matches with ideal doctors & hospitals
- Scores clinical, linguistic & cultural fit
- Reviews history & verifies credentials

Cost Transparency

Itemized Cost Predictor

- Breaks down costs upfront
- No hidden fees or surprises
- Verifies outcomes & cost estimates

Travel Orchestration

Complete Travel Management

- Handles visas & flights
- Coordinates in real-time 24/7
- Off-site emergency & translation

Treatment Support

End-to-End Patient Guidance

- Navigates local services & admissions
- AI monitoring with human backup
- Smooth experience abroad

Recovery & Telehealth

Recovery Companion + Follow-up

- Telehealth & medication guidance
- Monitors post-op recovery
- Bridges care continuity gaps

AI-Native Operating Model

AI Triage Agent

→ evaluates case severity

erity

Medical Match Agent

→ selects hospitals/doctors

Cost Verification Agent

→ compares global pricing

Logistics Agent

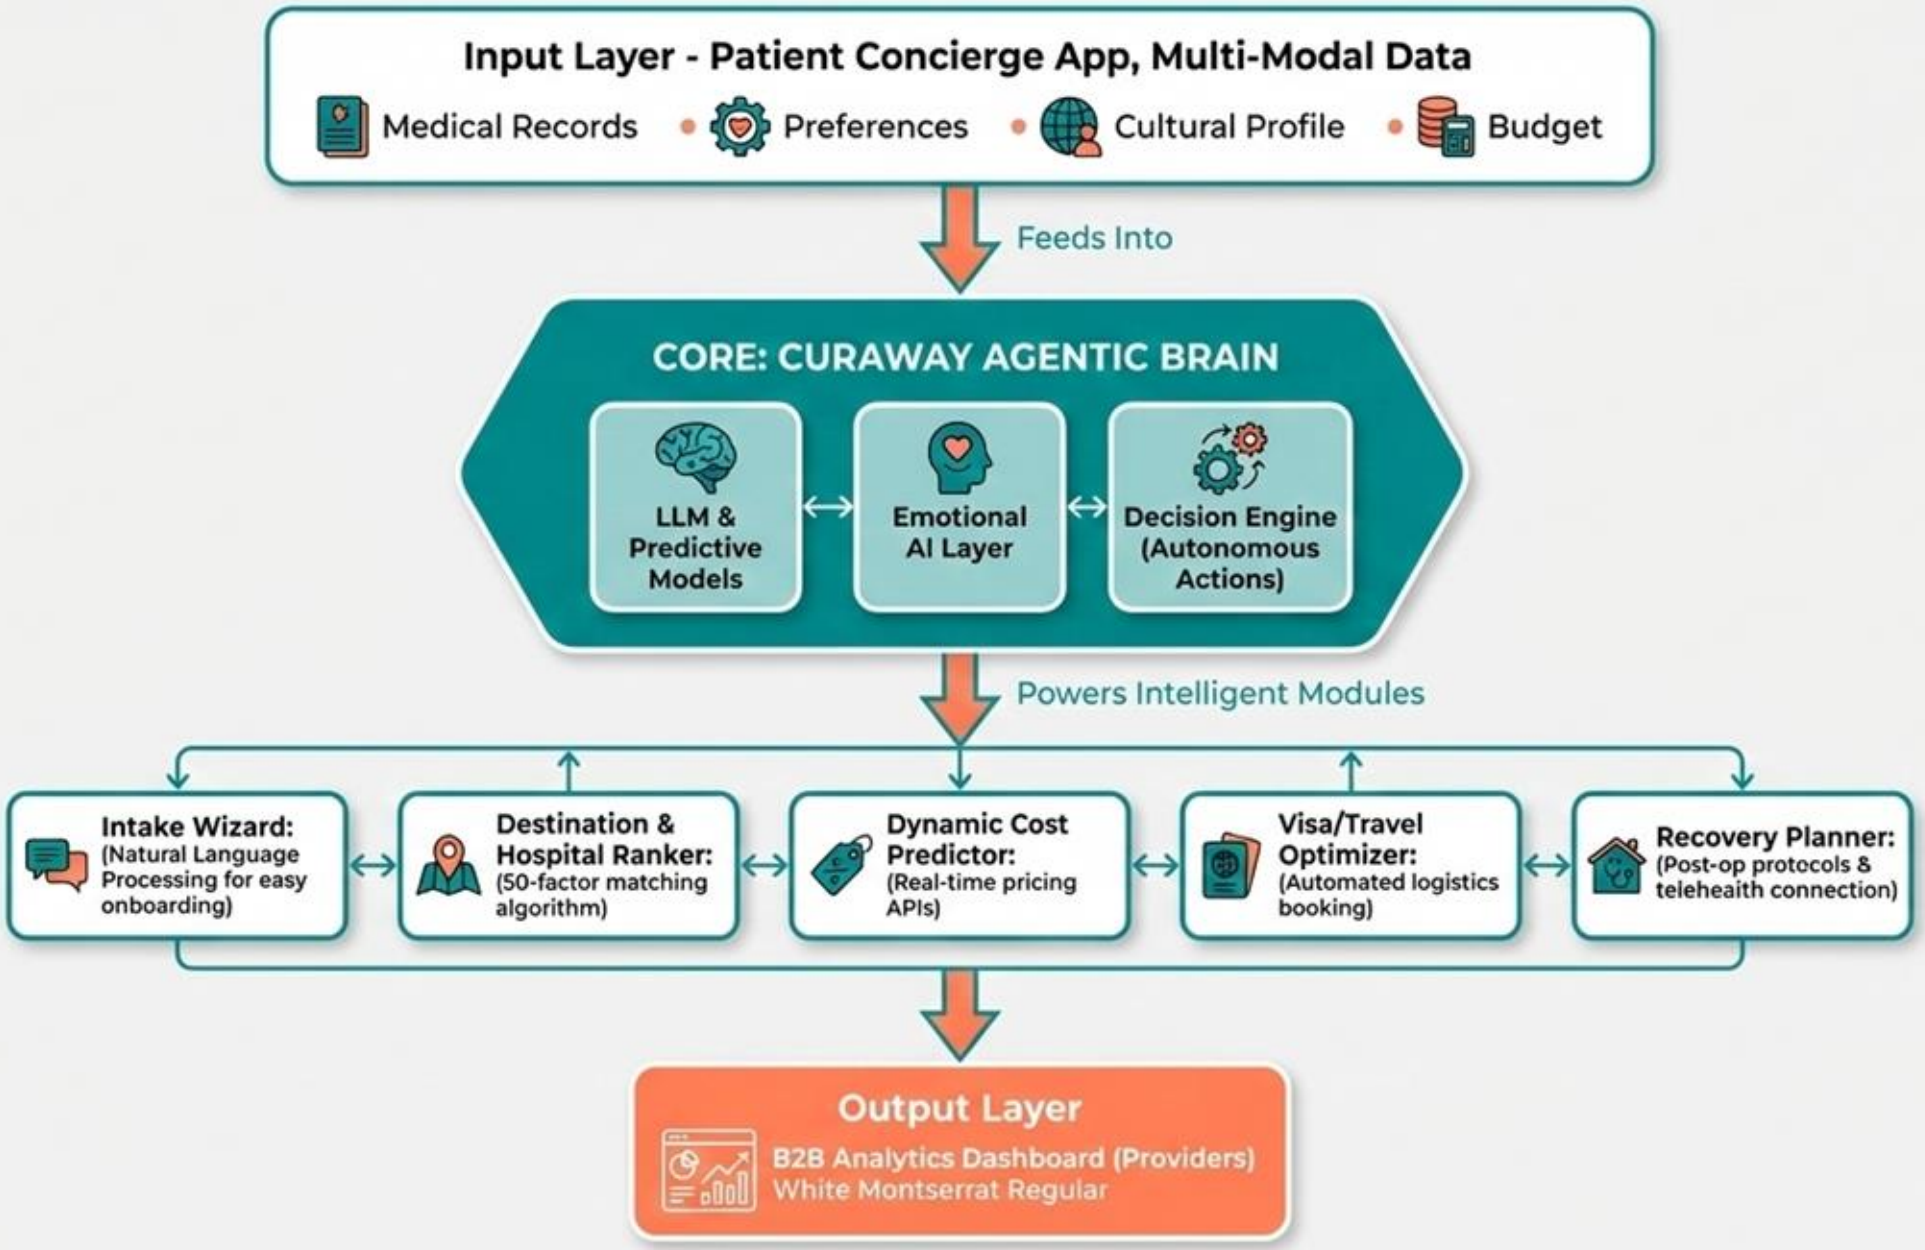

→ automates travel, stays, visas

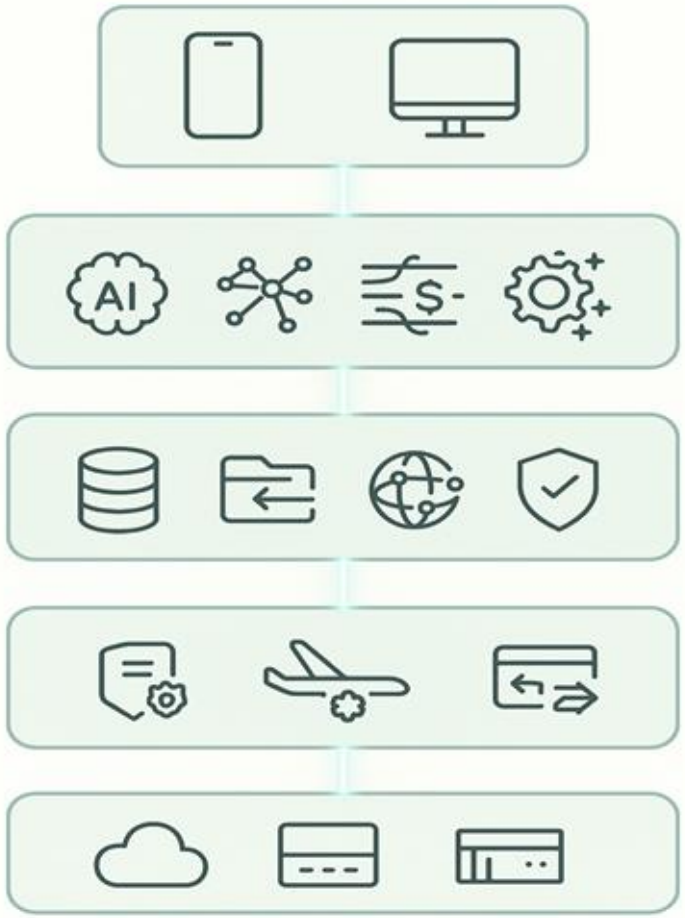

Care Continuity Agent

→ handles post-op follow-up

Under the Hood: Agentic AI Core

High-Level Architecture Diagram

Frontend: Patient App + Provider Portal

AI Layer: Triage Engine, Match Engine, Cost Engine, Logistics Engine

Data Layer: EHR ingestion, FHIR compliance, global hospital index

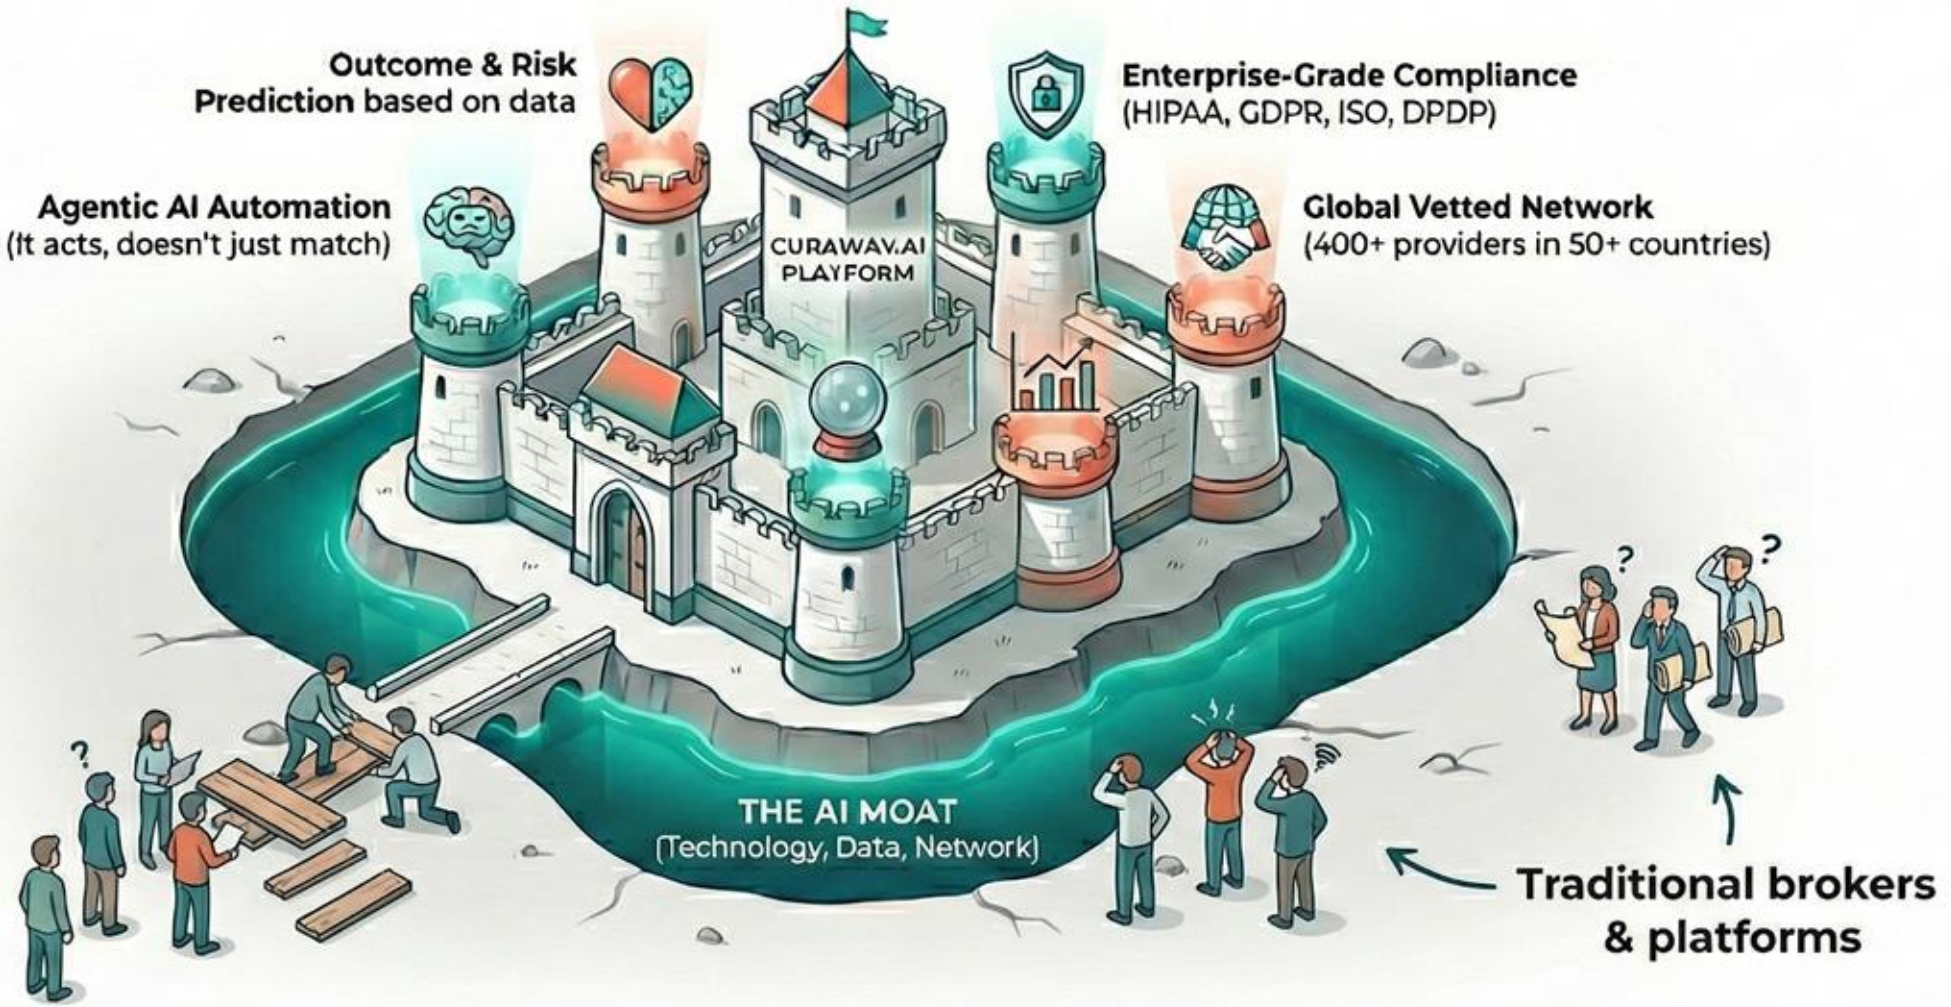

Integrations: Insurance APIs, Travel APIs, Payment, Identity

Compliance: HIPAA, GDPR, NABIDH

Our Unfair Advantage: The AI Moat

Unrivaled Advantage: Our Differentiated Edge

Agentic AI Automation

Our AI **proactively matches** and secures the best care options rather than simply presenting choices.

Emotional & Cultural AI

Matches patients with providers considering **50+ factors** of clinical and cultural compatibility for personalized care.

Global Compliance

Out-of-the-box compliance with **HIPAA, GDPR, ISO, DPDP** standards ensuring patient data protection worldwide.

Extensive Provider Network

Access to **400+ accredited providers** in **50+ countries** ensuring global coverage and quality care.

Outcome Prediction

Data-driven **risk & outcome prediction** enables informed decisions and proactive care adjustments.

Delivers **dedicated coordinators** throughout the patient journey for personalized guidance and support.

Others

- Fragmented services
- Limited geographic coverage
- Inconsistent standards of care
- No compliance standards
- No emotional Intelligence
- No post-care engagement
- No unified platform
- No end-to-end support
- Transactional human touch

Robust & Scalable Business Model

Hospital Commission

~15-20% success fee on treatment value.

Premium Concierge Services

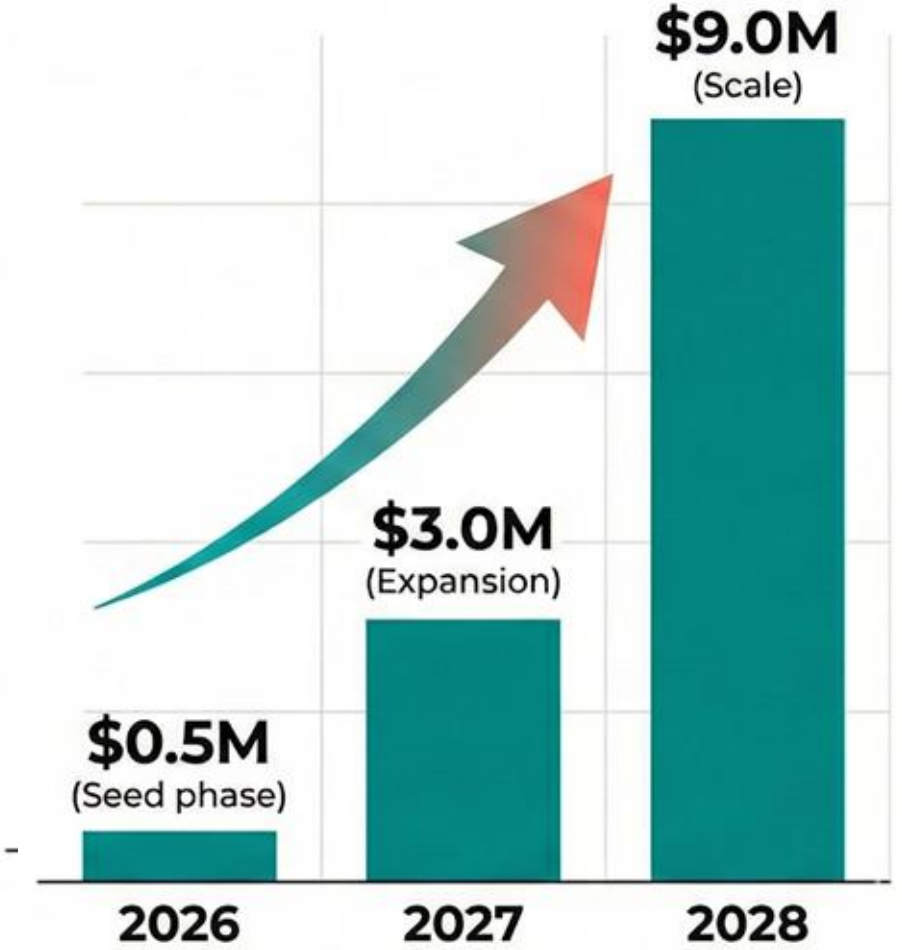

Add-on travel and luxury recovery packages.

Aftercare Subscriptions

Post-op remote monitoring and telehealth access.

3-Year Revenue Projection

Unit Economics

Customer Acquisition Cost (CAC)

- AI health advise tools.

Referrals (25%)

- Doctor networks
- patient advocacy groups.

Outbound / Partnerships (15%)

- Strategic alliances with insurance brokers
- travel agents.

Global Rollout Roadmap

Phase 1 (Validation)

Corridor: EU/US/UK/UAE → India/Turkey.

Focus: High-volume procedures (Orthopedic, Cosmetic, Dental).

Phase 2 (Expansion)

Corridor: Add Malaysia/ Thailand/Korea as destinations.

Focus: Specialized treatments treatments (Oncology, Cardiology).

Phase 3 (Global Scale)

Full global network activation and B2B platform licensing.

Driven By Purpose

“Vasudhaiva Kutumbakam”
One Earth, One Healthy Family.

Mission Statement: To democratize healthcare, building a more equitable world without borders through technology.

Service:
We serve the patient first, always.

Care:
Going beyond treatment to holistic well-being.

Compassion:
Understanding the vulnerability of the medical journey.

Empathy:
Designing technology that feels human.

Excellence:
Vetting only the best global standards.

The Team Building the Future of Care

Prasad Bhamidipati

CEO

20+ years scaling tech platforms and driving global business strategy.

Srikanth Donthi

CPO & CAI

AI/Platform Lead. Expert in Agentic AI and scalable product architecture.

Bhaskar Manda

COO

Deep domain expertise in medical tourism operations and provider logistics.

Krishna Kotinadham

Co-founder

Driving strategic global partnerships and network expansion.

Dr. Shrikanth Naidu

Clinical Advisor

Ensuring clinical integrity and patient safety protocols.

The Architects of Care: Our Leadership Team

We are a passionate and experienced team dedicated to revolutionizing medical tourism through innovation and compassionate care.

Prasad Bhamidipati
CEO

25+ years of leadership in scaling global technology platforms and driving strategic growth.

Executive

Srikanth Donthi
CPO / CAIO

Visionary AI architect and platform lead with extensive experience in developing cutting-edge solutions.

AI

Bhaskar Manda
COO

Deep expertise in medical tourism operations, ensuring seamless patient journeys and operational excellence.

Operations

Krishna Kotinadham
CTO

Strategic partnerships expert with a proven track record in building robust industry alliances.

CTO

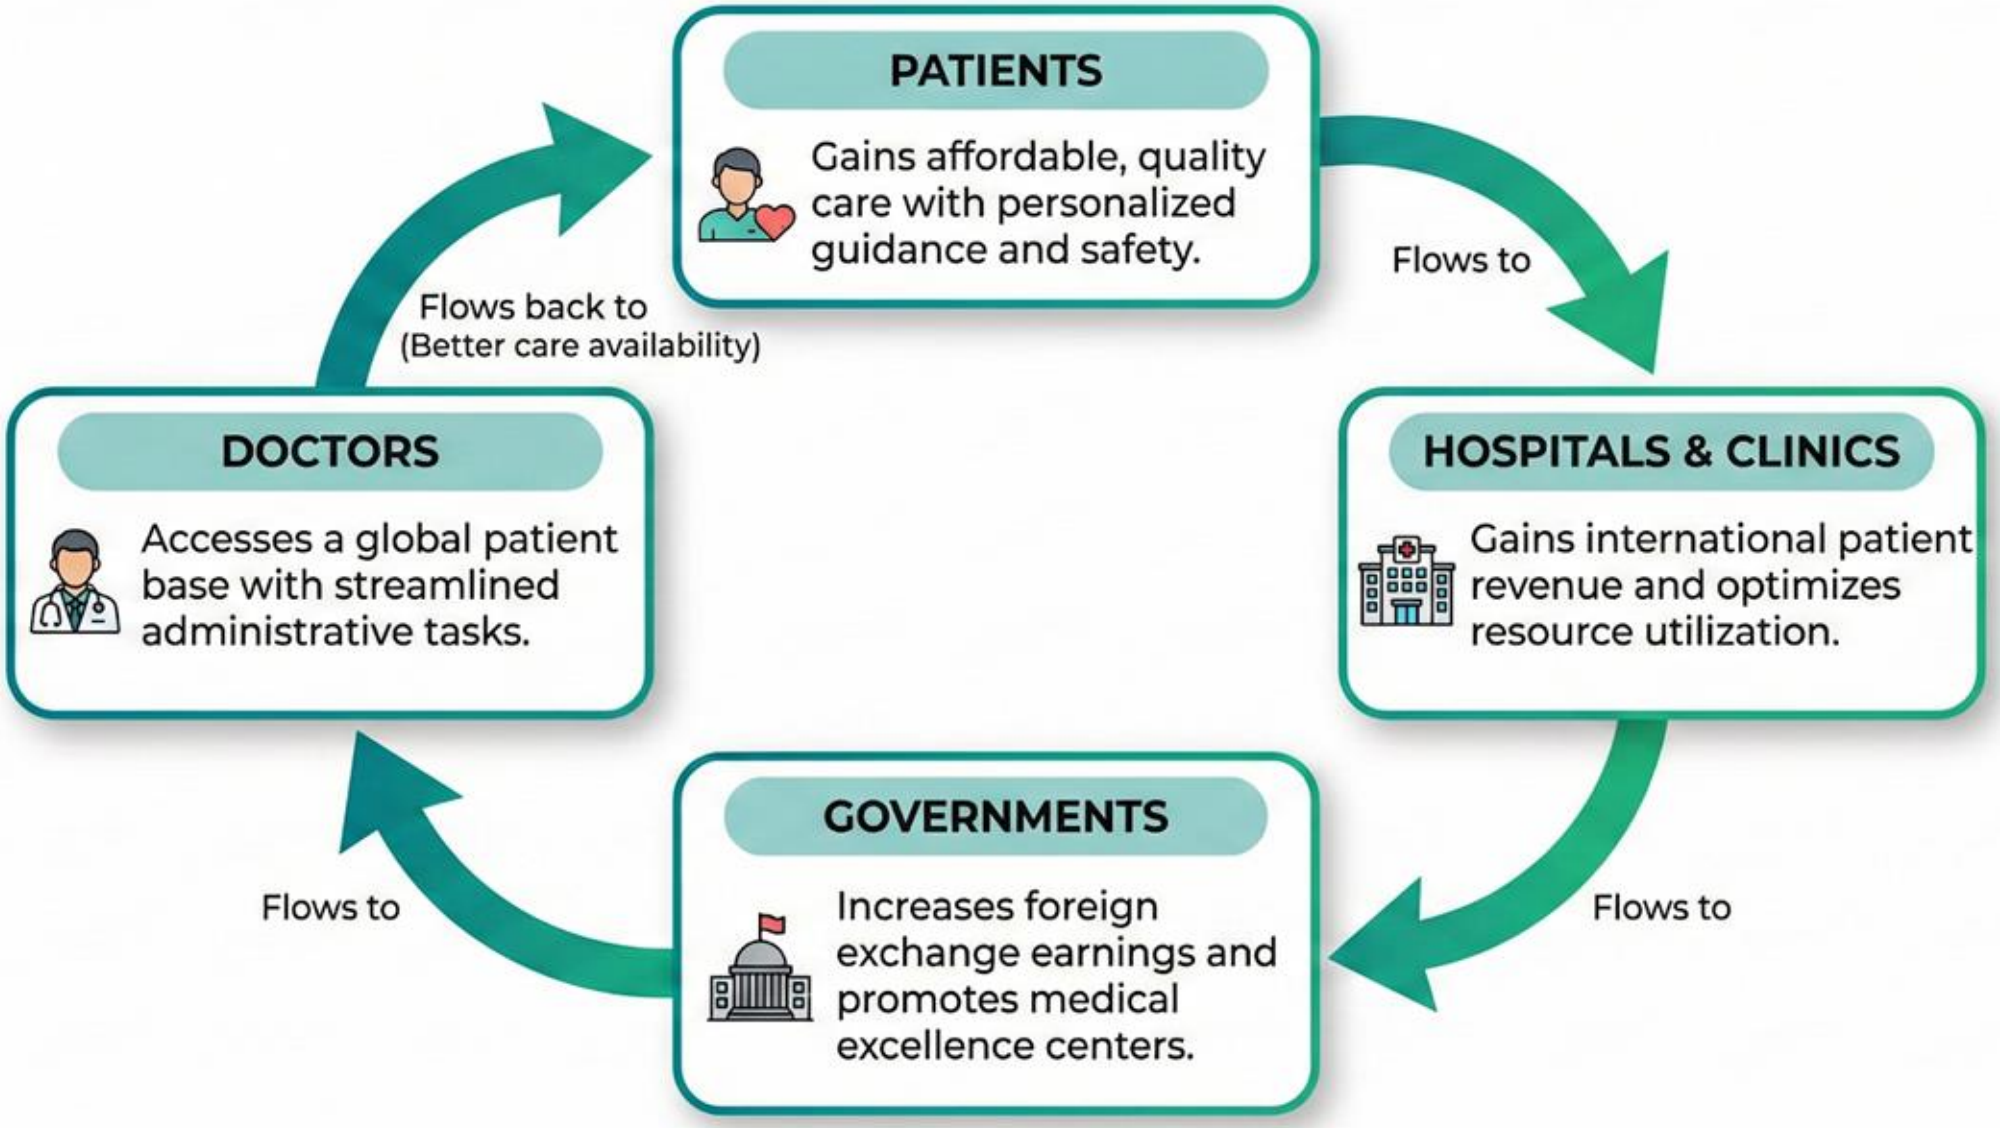

Dr. Shrikanth Naidu
Clinical Advisor

Renowned medical professional providing invaluable clinical guidance and ensuring patient safety and quality.
